Gaurav Athode

Full Stack Developer

+91-9755784190 | gauravathode123@gmail.com | LinkedIn | GitHub | LeetCode Portfolio

Profile Summary

MERN Stack Developer with strong problem-solving skills and hands-on experience in building scalable web applications. Proficient in Data Structures and Algorithms, with a passion for developing efficient, user-centric solutions and continuously improving technical expertise.

Technical Skills

Languages: Java, JavaScript
Front-End: ReactJS, Tailwind CSS
Back-End: NodeJS, ExpressJS
Databases: MongoDB, SQL
Tools: GitHub, VS Code, Eclipse
Cloud: Netlify, Vercel

Core Competencies: Data Structures & Algorithms, Core Java, Object-Oriented Programming, MERN Stack, Problem Solving

Experience / Internships

Zidio Development **July 2026 – Present**

Web Developer Intern

- Collaborated with a team of developers to design, develop, test, and deploy features for a full-stack web application, following Agile development practices.
- Worked closely with team members to integrate frontend, backend, database, and AI-powered features while debugging issues and maintaining code quality.

RICR – Raj Institute of Coding & Robotics **Nov 2024 – March 2026**

Full Stack Web Development Training

- Undergoing intensive MERN Stack training with hands-on projects, RESTful APIs, authentication, and database design.
- Developing and deploying full-stack applications following industry best practices.

Horizon Flare India **Mar 2025 – May 2025**

Full Stack Web Development Intern

- Completed an 8-week internship building responsive and scalable MERN Stack applications.
- Collaborated with teams to design and deploy production-ready solutions.

Projects

VoltPath - Smart EV Route Planning Platform **Jan 2026 – Jun 2026**

MERN Stack (MongoDB, Express.js, React, Node.js), Tailwind CSS, Leaflet, REST APIs

- Developed a full-stack EV route planning platform that enables users to plan optimized electric vehicle journeys with charging station discovery and route visualization.
- Integrated external APIs for routing, weather insights, and charging station data, and implemented secure authentication using Google OAuth and JWT.

Cravings - Food Ordering Web Application **Sep 2025 – Jan 2026**

MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Developed a full-stack food ordering platform with user authentication, restaurant listings, and responsive UI.
- Implemented scalable REST APIs, modern React components, and future-ready architecture for payment and order tracking.

Education

Laxminarayan College of Technology Excellence (LNCT Group) **2026**

Bachelor of Technology in Computer Science and Engineering – CGPA: 7.64/10 *Bhopal, Madhya Pradesh*

Jawahar Navodaya Vidyalaya **2022**

Higher Secondary Education (12th Grade) – 79% *Balaghat, Madhya Pradesh*

Certifications

Full Stack Web Development – RICR 2026
Data Structures and Algorithms using Java – Infosys Springboard 2025
Programming Using Java – Infosys Springboard 2024
